

## REMARKS

The Office Action of August 16, 2005 has been carefully reviewed and these remarks are responsive thereto.

### Species Election

The Office Action states that the application contains claims directed to the following patentably distinct species:

I.) Figures. 1-3.

II.) Figure 4.

III.) Figures 5-6.

Subspecies (if species III is elected)

A. Figure 7.

B. Figure 8.

C. Figures 9-10.

D. Figures 11-12.

IV.) Figure 13.

V.) Figure 14.

VI.) Figure 15.

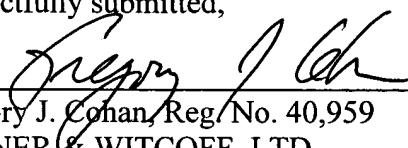

This requirement for an election of species is traversed. Applicant respectfully submits that Species I-VI are sufficiently related that the search and examination of each of the species would not be a serious burden since these species would not have separate classifications, would not have separate status in the art, and would not require searches in different fields.

As noted in the Office Action, pending claim 1 is generic to Species I-VI. As required, applicant hereby provisionally elects Species I, directed toward Figs. 1-3. At least claims 1-6, 8-11, 27-30, 34-38, 40-43 and 45 are all readable on Figs. 1-3.

The Commissioner is hereby authorized to charge any fees or credit any overpayments to **Deposit Account No. 19-0733**.

Respectfully submitted,
